

FREDRICK ANYANWU

FULL STACK DEVELOPER

ABOUT

I am a highly motivated engineer with a strong passion for cutting-edge technology and intuitive web design and ensuring data flows smoothly between the client and the server.

Raised in Kaduna, Nigeria, and deeply inspired by influential figures in the Nigerian tech industry, My expertise lies in creating sleek, responsive interfaces that captivate users and building RESTful APIs, ensuring data flows smoothly between the client and the server and push the boundaries of what's possible with code.

In my career, I've had the opportunity to work on a wide range of projects, from e-commerce platforms to social networking applications. I believe in the power of clean, maintainable code and am always eager to embrace new technologies and best practices.

Whether working solo or as part of a team, I approach every project with an unwavering dedication to producing the highest quality work.
